Vested in the Shire of Cunderdin
and the National Trust of Australia (WA)

Discover Cunderdin's war-time contributions & the 10th Light Horse Brigade

CUNDERDIN MUSEUM

No.3 Pump Station

A testament to Aussie ingenuity, amazing feats of engineering and true outback spirit.

Pump Station No.3 on the Golden Pipeline Heritage Trail was built in 1902 to house the original steam engines and boilers used to pump water from Mundaring Weir to the goldfields of Kalgoorlie. Engineered by C.Y. O'Connor (pictured left), this project is still considered one of Australia's greatest feats of engineering.

Exhibition Galleries • Rural Lifestyle Pavilion • Old Schoolhouse • Military Machines
