WELCOME TO THE EASTERN WHEATBELT

The Eastern Wheatbelt is a two hour drive from Perth and lies between the Avon Valley in the west, the Goldfields in the east, Gascoyne Murchison in the north and the Great Southern in the south. The east-west rail and road freight route, the Great Eastern Highway, runs through the centre of the region.

The Eastern Wheatbelt is one of the largest dryland grain growing regions in the state with the most common crops being wheat, barley and canola which are suited to the semi-arid climate.

 Beringbooding Rock

At any time of year the changing nature of the farming landscapes, big skies and sunsets, bushland reserves and salt lakes will captivate road trippers. Take the time out to reconnect and recharge your senses.

There are 21 local governments here to provide you with country hospitality, showcase their events, festivals, attractions, and history, inviting you to immerse yourself in new experiences at every turn and stay a little longer.

HOW TO GET HERE

ROAD TRIP

A good network of sealed and unsealed roads get you exploring in any direction. With more self-drive trails than you will have time to traverse, we suggest you take the time to explore at a less hurried pace.

RAIL OR ROAD COACH

Transwa operates a daily passenger rail service between East Perth and Kalgoorlie. The Prospector, which stops in the Eastern Wheatbelt towns between Meckering and Southern Cross, and the Merredin Link, which stops between East Perth and Merredin. There is also coach services from East Perth to the towns of Beverley, Quairading, Corrigin, Kondinin, Hyden/Wave Rock, Kulin and Lake Grace.

WELCOME TO COUNTRY

FOLLOW THE FOOTSTEPS OF OUR ANCESTORS

A "Welcome to Country" is the unwritten rule that Aboriginal people are still connected to the land and have been so for thousands of years. This acknowledgement pays respect to the Traditional Owners, ancestors and the continued cultural, spiritual and customary practices and rights of Aboriginal people. It also provides an increase in awareness and recognition of Australia's Aboriginal peoples and cultures.

The Wheatbelt region is home to three distinct Aboriginal groups: The Njaki Njaki Nyoongar, the Ballardong Nyoongar and the Gubrun, each with traditional Aboriginal cultural governance landscapes that continue to this day. These places have been as much a part of the landscape, entwined with the different geographic areas with ecological distinctions that shape the identity of Aboriginal groups to the spectacular places and scenery.

As a visitor, we ask that you pay respect to the land and the places you choose to visit. We wish you a safe journey as you travel through our lands. Please remember that each step you take today, is in the footprints of our Ancestors.

 Njaki Njaki Aboriginal Cultural Tours

NJAKI NJAKI ABORIGINAL CULTURAL TOURS

Why not bring your friends or join a group for our weekend Tag-Along Tours. Join a small group of private vehicles travelling the Wheatbelt back roads in convoy led by Tour guide Mick and family.

There are several routes that we travel to some of the areas most picturesque places that we visit and camp at. Beautiful granite outcrops, natural salt lakes and various water holes that hold many cultural stories that link the landscape from thousands of years ago to the present.

No previous off-road experience needed, just imagination and adventure. No Camper Trailer, no worries, you can hire one of ours.

EASTERN WHEATBELT

**RICH IN HERITAGE.
ABUNDANT IN NATURAL WONDERS**

SELF DRIVE

Plan a journey through the heritage rich communities and abundant natural wonders of the Central and Eastern Wheatbelt. The self-drive trail features 21 key sites but if you have the time to stay and explore longer, you will find that there is a whole lot more on offer.

Duration: 3 nights, 4 days

Distance: 770km one way from Perth

Road Conditions: sealed roads with stretches of maintained unsealed roads to some attractions

Just 132km, or around 1.5 hours, east of Perth along the Great Eastern Highway lies Meckering, the gateway to the Eastern Wheatbelt self-drive trail. Begin your journey at the Earthquake Gardens, where powerful displays recount the devastating 1968 Meckering Earthquake.

From Meckering, continue to Cunderdin, home to one of the state's finest rural museums. Located within the historic No.3

Steam Pumping Station, the Cunderdin Museum showcases pioneer life through fascinating artefacts, heritage buildings, vintage machinery and an immersive earthquake display. Nearby, the CY O'Connor Community Park is the perfect place to stretch your legs.

Travel east to Tammin to explore the Kadjininy Kep Hydrology Model before venturing north to Yorkrakine Rock. Wander across this impressive granite outcrop to discover gnamma holes, native vegetation and sweeping Wheatbelt views. South of town, Charles Gardner Reserve offers 600 hectares of natural bushland renowned for its spectacular spring wildflowers.

In Kellerberrin, discover the town's rich heritage on a self-guided walking trail before taking in panoramic views from Kellerberrin Hill. Nearby, some of the Wheatbelt's most impressive granite formations await, including Mount Caroline, Mount Stirling and Kokerbin Rock, Australia's third-largest monolith.

Stop in at Shackleton to see Australia's smallest bank. In Bruce Rock stroll along the Centennial Mosaic Pathway, visit the Bruce Rock Museum and meander through the beautifully landscaped grounds of Remembrance Park.

See a rock wave formation and Charles Hunt's pioneer well at Totadgin Rock and Conservation Park 14km south of Merredin. At Merredin Peak, explore the bush or rock walk trails to an 1890's rock wall rainwater catchment around the top

of the granite outcrop leading to a rock channel and spillway into Railway Dam.

Travelling east, cross the original site of the No. 1 Rabbit Proof Fence at Burracoppin, before heading north to Westonia where history is preserved in the towns' buildings facades. Experience the Hood-Penn Museum and enjoy views across the Edna May Gold Mine.

Complete your journey in Southern Cross with the Yilgarn History Museum and nearby Frog Rock Nature Reserve. If time permits, continue to Karalee Rock and Dam, one of the gateways to the magnificent Great Western Woodlands, the world's largest intact temperate woodland.

PATHWAYS TO WAVE ROCK

WHICH PATH WILL YOU TAKE?

SELF DRIVE

Turn your drive to Wave Rock into an unforgettable Wheatbelt adventure. Discover welcoming country towns, sweeping landscapes, colourful wildflowers in season, endless star-filled skies and authentic farming experiences along the way.

Duration: 3-4 days

Distance: 850km

Road Conditions: Sealed

The Pathways to Wave Rock self-drive trail links the Shires of Beverley, Bruce Rock, Corrigin, Kondinin, Kulin, Lake Grace, Narembeen and Quairading, creating a road trip full of surprises, stories and standout stops. It's the kind of journey where every town has something beautiful waiting around the corner.

Kick things off in Beverley, where aviation history meets heritage streetscapes and creative country energy. Explore the Visitor

Centre, wander Vincent Street, and take in local art that brings the town to life. From there, head to Corrigin, home of the iconic Dog Cemetery, a heartfelt and unforgettable stop, along with the Pioneer Museum, Rotary Park, and the seasonal colour show along the Wildflower Drive.

Roll into Kondinin, where public art and community spirit shine. Stretch your legs at Yeerakine Rock and take in sweeping views alongside the powerful ANZAC Light Horse memorial. Then it's on to Kulin, where imagination takes over on the famous Tin Horse Highway. Keep your eyes peeled for cleverly crafted horse sculptures popping up along the roadside, enjoy Buckley's Breakaway and in the summer, cool off at the Giant Water Slide and Aquatic Centre.

Continue your journey to Lake Grace, where salt lakes shift colour with the light and sky, creating a surreal and unforgettable landscape. Step inside the historic Australian Inland Mission Hospital and feel the echoes of early Wheatbelt life. Continue through the Shire of Lake Grace to Newdegate, Lake King and Varley, where bold silo art, museums, walk trails and hidden gems bring the region to life.

Next, arrive in Hyden, home of the world-famous Wave Rock, a natural wonder that truly lives up to the hype. Explore nearby Hippo's Yawn and Mulka's Cave before continuing on to Narembeen. Here, dive into farming history at the Grain Discovery Centre, take in sweeping Wheatbelt views from Roe Lookout and Walker

Lake, and connect with nature at Wadderin Wildlife Sanctuary.

Bruce Rock follows, offering a rich mix of heritage, history and agricultural machinery displays that reflect true country life. Nearby, Kokerbin Rock invites you to explore rugged trails and panoramic views worth the climb before you roll into Quairading. Discover the iconic El Toro sculpture, wander wildflower-filled reserves, and enjoy peaceful picnic spots perfect for a slow afternoon. Finish the journey at Toapin Weir, a tranquil setting for sunsets, BBQs, or camping beneath some of the clearest night skies in Western Australia.

The Pathways to Wave Rock isn't just a drive, it's a full Wheatbelt experience packed with character, colour, and country hospitality at every stop.

PIONEERS' PATHWAY

DISCOVER PIONEERING STORIES

SELF DRIVE

 Mangowine Homestead

Take this delightful scenic route traversed by the early pioneers in search of farmland and the lure of the eastern goldfields. Starting in Goomalling, a quiet Wheatbelt town surrounded by wideopen farmland and heritage charm, and travelling through to the regional hub of Merredin.

For history audios go to the Story Town Podcasts storytowns.com

Duration: 2 to 5 days

Distance: 292km one way Perth via Goomalling to Merredin

Road Conditions: Sealed road with some unsealed access sections into nature reserves.

Discover the people who have helped make the Wheatbelt the place it is today. Learn

the stories of the men from bushrangers to farmers and pastoralists and how the company that is Australia's largest exporter of grain was started right here in the Wheatbelt of Western Australia. Hear the accounts of the women who were lawyers, nurses, teachers, wives and mothers who conquered, survived and thrived in the harsh conditions of these towns that remain today. Take the time to learn the stories and explore the Pioneers' Pathway.

Leave the hustle and bustle of the city behind and follow Pioneers' Pathway Self Drive through the hills to the pretty farming town of Avon Valley via either Northam or Toodyay. Valley views and a patchwork of farmland make this a scenic stop for lunch at a local pub or riverside picnic spot. Continue north east to Goomalling, crossing the Avon River tributary at Mortlock River - a well-known wildflower stop during spring.

Step back in time at the heritage listed Slaters Homestead located 2.5km east of Goomalling. Visit one of the earliest bulk handling wheat bins now housing the Wyalkatchem CBH Museum with heritage machinery and rare tractor displays. Camp at the National Trust's Mangowine Homestead 14kms north of Nungarin. An impressive 1897 steam locomotive, rolling stock and railway history is on display at the Merredin Railway Museum, or take in a live show at the historic Cummins Theatre.

World War II history comes alive at the Nungarin Heritage Machinery and Army

Museum, the Merredin Military Museum and the 2/1st Army General Field Hospital site at Merredin Peak Reserve. Walk the many nature reserves protecting large areas of natural bushland and granite outcrops where magnificent eucalypt trees dominate the landscape and seasonal wildflowers carpet the forest floor. Meet Rusty the Tin Dog and explore the Tin Dog Creek Walk Trail at Dowerin or other town reserves such as Korrelocking at Wyalkatchem, Eaglestone Rock and Talgomine Reserve at Nungarin, and Tamma Parkland and Totadgin Conservation Park near Merredin.

WHEATBELT WAY

BRIGHT SKIES, BIG HORIZONS

**SELF
DRIVE**

 Sunset at Marshall Rock

The Wheatbelt Way self-drive trail will lead visitors on an adventurous interpretive journey to the regional communities of Dowerin, Wyalkatchem, Koorda, Bencubbin, Beacon, Westonia, Mukinbudin, Nungarin and Trayning. Experience their natural attractions, history and heritage while offering unique opportunities to stay and experience friendly communities and open landscapes.

For history audios go to the Story Town Podcasts storytowns.com

Duration: 3 - 5 days or more

Distance: Approximately 900km - 1,000km

Road Conditions: Sealed with stretches of good unsealed road to rock and bushland features.

This trip showcases a stunning blend of wide-open farmlands and massive rocky outcrops, all teeming with diverse bird and wildlife. You'll also discover the region's fascinating water-harvesting history—from ancient Aboriginal gnamma holes and historic pioneer wells to modern granite rock catchment systems.

Depending on seasonal conditions there are carpets of small pink and yellow everlastings and numerous flowering shrubs, hakea, grevillea, wattle and eremophila, senna, dampiera and verticordia. Native orchids can be found in early spring at the damp base of the granite outcrops while later in the season red bottlebrush and kunzea grow between the cracks.

The water collected on these massive granite outcrops makes them a haven for local birdlife. Visitors can explore unique geological features including rock waves, caves, and a tunnel, before heading to the top to enjoy breathtaking panoramic views.

A variety of museums include army, hospital, early farm machinery, the first CBH bulk handling wheatbin and a pioneer town house.

Memorabilia abounds, artworks, murals, sculptures, art deco buildings and a historical retro drive-in cinema, its one big collection of curiosities. Look to the dark night skies for a boundless canopy of jewelled stars.

Wondering where to stay?

There are excellent caravan parks available in most towns with cabin accommodation or camp under the stars at free camping sites with toilets, BBQs and picnic tables. For more personalised service try a country pub or any of the B & B's available (bookings advised).

SALT LAKES

NATURE'S DRAINAGE SYSTEMS

 Yenyenning Lakes

When water levels are low, algal blooms in the lakes create dusty pink to fluorescent green or yellow water. Even in their dry state, salt lakes offer stunning landscapes with great photo opportunities.

The waterways and wetlands of the Wheatbelt have been shaped over millions of years by the climate and geology. The Wheatbelt landscape of today is very flat and the ancient river valleys (paleochannels) have become filled with sediment. When significant rain falls, the salt lakes become fully functional aquatic systems with aquatic flora and fauna usually lying dormant as buried seeds and eggs awaiting the right conditions which attract bird life.

SALT LAKES IN THE EASTERN WHEATBELT

Lake Baandee E6

Lake Baandee is an ephemeral salt lake located 25km east of Kellerberrin on Ski Lake Road, just off Great Eastern Highway. When full, the lake provides an ideal recreation facility for water skiing, swimming and camping. Along Doodlakine-Baandee Road, you can find a lookout site that gives you a magnificent view over the extensive salt lake system.

Lake Koorkoordine K4

Located 6km north of Southern Cross on Bullfinch Road, this lake is named after the Aboriginal words for meat (Koorkoor) and place of (dine). Due to the water and wind erosion over the years, some very interesting miniature caves, cliffs and bays await your discovery.

 Baladjie Lake Nature Reserve

SALT LAKES IN THE WHEATBELT WAY

Cowcowing Lake C8

Located 26km to the north of Wyalkatchem on the Wyalkatchem-Koorda Road. This lake gives it name to the Cowcowing siding and covers an area of 15,000ha.

Dowerin Lakes A10

Located 8km south of Dowerin, originally an ephemeral freshwater lake system and site for the original town settlement in 1895. It was originally established as a watering hole and resting place for prospectors and travellers on their way to the goldfields.

Lake Askew E6

Easily accessed along the Beacon-Bencubbin Road, this lake offers magical photography opportunities especially taking in the star-studded night skies.

Lake Brown G9

20km north east of Nungarin and located at the base of Eaglestone Rock off Lake Brown South Road. Enjoy great views and amenities.

Lake Champion H9

Located on Stock Road north-east of Nungarin, Lake Champion is a lake which during the wildflower season is sprinkled with pink everlastings. White winged fairy wrens inhabit the sapphire margins of the lake. A BBQ area is available by the lake on the Chandler-Nungarin Road.

Lake McDermott F7

Located 8km east of Bencubbin, the reserve is a combination of a salt lake water system and bushland with wonderful native flora and fauna. The lake is used for skiing, kayaking and paddleboarding after good rains and water levels permit.

Nambling Salt Lake A10

Located 6km west of Dowerin on the Goomalling-Merredin Road. This lake turns pink at certain times of the year and does not disappoint if anyone is looking for a pink lake experience closer to Perth.

SALT LAKES IN THE PATHWAYS TO WAVE ROCK

Kondinin Lake I6

A large lake 5km west of Kondinin. After sufficient rain there is an abundance of water birds and ski and sail boat activities. A colourful interpretation panel provides interesting information on the lake history, geology, flora and fauna.

Lake Grace I10

Located 10km west of Lake Grace townsite, it comprises two separate water bodies, Lake Grace North and Lake Grace South making it one of WA's biggest inland lakes. Viewed from the visitors' information bay on its western side and the lookout 2km to the west.

Lake King O9

Approaching the town of Lake King from the west you are greeted with astounding sights. The lake is scattered with natural scrubland and seasonal wildflowers.

Lake Magic L6

Situated 1km north of Wave Rock adjacent to Wave Rock Resort. The water in the lake is clear but very salty. The lake base is made of gypsum and is surrounded by beach sand.

Pink Lake L3

This local phenomenon is located 11km east of Quairading on the Bruce Rock Road. At certain times

of the year the south side of the lake is a distinctive pink colour while the north side remains blue. Summer evaporation causes the water level to drop and salt builds up on the old tree stumps and fence posts. It is the salt that causes the pink colour once water returns to the lake.

Statues Lake I6

Located 10km west of Kondinin on the Corrigin-Kondinin Road. View of the eclectic statues created by local Kondinin farmer Kelly Browning, from star pickets depicting various farming themes – 'waiting for hay', 'clearing the land', 'waiting for rain', 'shearing the sheep' and 'inspecting the crop'.

Walker Lake and Avoca Farm

Located to the south of the Narembreen townsite is a natural lake with abundant water during winter, spring and into summer. Wander around the lake as you take in this beautiful natural setting. The lake is surrounded by a 1.8km wheelchair accessible pathway, with two outdoor exercise equipment areas for those feeling more energetic.

Yenyenning Lakes E5

Located 32km south east of Beverley. All water from the Lockhart and Yilgarn Catchments flow through into the Yenyenning Lake system and then onto the Avon River. The lakes have been a cherished spot for recreation to the locals for generations and is also a great spot for bird watching, keen star gazers and photographers.

Salt lakes are fragile natural environments and are particularly susceptible to the physical impacts from off-road vehicles, motorcycles and quad bikes. Do NOT drive on or near the lake edges.

GRANITE OUTCROPS

 Eaglestone Rock

The granites underlying the wheatbelt are some of the world's oldest rocks forming 2600-2700 million years ago. Rising abruptly from the plains, the exposed rock habitats provide protected microhabitats that collect rainwater where native plants and animals flourish. Aboriginal people maintained a cultural and spiritual connection between the outcrops, waterways and lake systems for tens of thousands of years. Early Europeans saw the granites for their rainwater catchment potential and built rock walls and aqueducts to capture rainfall run-off into dams. Today the granite rocks have become iconic recreational destinations providing visitors with many free campsites with an opportunity to get closer to nature in a safe environment.

OUTCROPS IN THE EASTERN WHEATBELT

See Eastern Wheatbelt map for map reference & key site number (e.g. 2)

Bulgin Rock Reserve

Halfway between Cunderdin and Meckering, turn south off the Great Eastern Highway onto Collins Road and right onto Burges Road onto the intersection of Bulgin and Burges Road. A beautiful rocky outcrop to explore with seasonal wildflowers.

Cunderdin Hill

Just south of Cunderdin, wind up the hill to this high point for extensive view of farmlands. Ideal spot for spectacular Wheatbelt sunsets and carpeted with everlastings during wildflower season.

Frog Rock & Dam (19)

Situated off Great Eastern Highway 25km south east of Moorine Rock. A small catchment dam is located beneath a large rock with a wave formation.

Karalee Rock & Dam (20)

This rock catchment and aqueduct built in 1897 is located 7km off the Great Eastern Highway 50km east of Southern Cross. A natural rock formation adapted to maximise the catchment, delivery and storage of rainwater that was essential in the railway development to the Goldfields.

Kellerberrin Hill (8)

Looking over the scenic town of Kellerberrin is the Hill Look Out, which offers spectacular views over the town site and beyond. Follow the windy road up past the granite outcrops to find the lookout

platform and picnic facilities, the perfect place to take the family and explore the scenic countryside of the Central Wheatbelt.

Merredin Peak Reserve & Railway Dam (15)

Located off Benson Road in Merredin, follow the Golden Pipeline signs. A rock wall was built around the contours of the peak which led to a 100m channel and into a 25 million litre capacity storage dam. This water catchment scheme provided water for both the town and the railway. Two walk trails and a popular picnic spot with shady trees.

Tandegin Rock (H6)

Located 20km south east of Merredin on the Old Muntadgin Road. Surrounded by remnant bushland and eucalypt forest, this is a great orchid spot during wildflower season.

Totadgin Conservation Park & Hunts Well (13)

Located 14km south of Merredin on the Bruce Rock Road. Surrounded by bushland, with walk trails leading to a mini 'wave' rock formation. This site features one of early surveyor Charles Hunt's historic hand-built stone wells.

Yorkrakine Rock (2)

Situated 26km north of Tammin this spectacular granite outcrop rises 341m. There is a good access road to the base of the rock and a walk trail up and over the rock to the gnamma holes with sweeping views over the remnant native flora and surrounding farmlands. In wildflower season there is a variety of flowers including native orchids to be found in the bushland. The rock is a sacred Aboriginal women's birthing place and also part of the beedawang (initiation journey) songline.

OUTCROPS IN THE PATHWAYS TO WAVE ROCK

See relevant map for grid reference locations (e.g. J5)

Anderson Rock Reserve, Twine Reserve & Gibb Rock L4

These three outcrops are all located east of the Hyden-Mt Walker Road with seasonal wildflowers, scenic points and a gnamma hole at Anderson Rock.

Hidden Hollow & Roe Dam K4

Hidden Hollow is a picturesque granite outcrop with walk trails and abundant flora and fauna. Roe Dam is an early water catchment and a pleasant picnic or BBQ site with toilets.

Bruce's Rock I3

Situated in a nature reserve 2km east of the townsite of Bruce Rock on the Bruce Rock East Road. There are two pioneer wells located at the picnic site and good walks are to be enjoyed over the rock outcrop.

Buckleys Breakaway K7

Located 70km east of Kulin, off the Kulin-Holt Rock Road, the breakaway is a picturesque landform where erosion has cut through the orange laterite and formed spectacular white cliffs and gullies from the underlying clay. The gully is dominated by native pine and eucalypts. At the top of the "breakaway" there is a variety of interesting vegetation.

County Peak D5

Located 35km east of Beverley and was given its name when the first surveyors drew up the original counties for the Swan River Colony in 1829. From the peak seven Shires can be viewed and historically was the intersection of counties York, Howick, Grantham and Minto.

Gorge Rock H6

Located 20km south east of Corrigin, enjoy the short walk through picturesque bushland to reach the natural rock pool, once the local swimming hole, before an Olympic pool was constructed.

Jilakin Rock & Jilakin Lake 17

Follow the Tin Horse Highway 20km east of Kulin on Kulin-Holt Rock Road, the site boasts the most isolated known stand of Jarrah growing 150km from the SW Jarrah tree belt, surviving on the water runoff and quarry soils at the base of the rock. An easy climb to the top provides spectacular views of Jilakin Lake and surrounding Wheatbelt.

Kokerbin Rock G3

Situated 40km west of Bruce Rock, this impressive outcrop is Australia's third largest monolith. Explore the natural bush tracks to discover Dog Rocks, a wave wall, caves and panoramic views.

Kumminin Rock I4

South east of Bruce Rock on Bruce Rock - Cumminin Road, from the car park you can explore the old school site of this early farming community or take the walk trail to the rock.

Kwolyin Camp & Coarin Rock G3

Situated 9km south east of Kokerbin Rock, a pleasant campsite amongst pristine bushland and sandalwood trees. Take a stroll along bush trails or absorb the history of the old Kwolyin town site along an interpretive pioneer trail. A popular RV camp site with camper's kitchen.

Coarin Rock is under Dept. Park & Wildlife, no dogs allowed. Facilities are at Kwolyin Camp.

Nookaminnie Rock E4

Located 2km west of the Quairading townsite on the Quairading-York Road. The Reserve covers 527ha of unique remnant vegetation that includes a diverse mixture of woodland forests and native shrubland. The Rowlie Mellor Walking Trails will take you to the top of the rock.

Toapin Weir & Rock Catchment E3

An easy breezy drive 8km north west of the Quairading town site. A water reservoir with a rock climb to the top for a picturesque view of the surrounding countryside.

Wave Rock & Hippos Yawn, Hyden L6

Located 4km east of Hyden on the Wave Rock Road. Believed to have formed over 2,700 million years ago, "the wave" stands an impressive 14m high and 110m long. It was formed by gradual erosion of the softer rock over many centuries. Carbonates and iron hydroxide caused by rain washing down the wave face form the vertical colours including greys, oranges and yellows.

The Humps & Mulka's Cave L5

Located 16km north of Wave Rock, its best-known feature is Mulka's Cave which holds one of the most significant Aboriginal rock art sites in WA. Two interpretive trails focus on the geology and plant habitats of the rock.

Yeerakine Rock I6

Situated 12km south of Kondinin on Sloan Road. Enjoy expansive views from the summit and appreciate the workmanship of the rock catchment established in 1927 to provide water for Kondinin. To commemorate the ANZAC centenary, a Light Horse Memorial silhouette statue has been erected on the rock which makes an amazing backdrop to the moving ANZAC Day dawn service held annually at Yeerakine Rock.

OUTCROPS IN THE WHEATBELT WAY

See relevant map for grid reference locations (e.g. J8)

Baladjie Rock J8

This extensive granite outcrop is in attractive woodland on the Koorda-Bullfinch Road 42km north east of Westonia. Climb the main rock for spectacular views of the nearby Baladjie Lake system and surrounding landscape.

Beringbooding Rock H6

Located 65km north east of Mukinbudin, this site has the largest rock water catchment concrete tank in Australia, built in 1937 and holding two and a quarter million gallons. Beringbooding has an amazing balancing boulder and a huge gnamma hole with two early pioneer wells are nearby.

Billiburning Rock & Reserve E4

This outcrop 35km north of Beacon provides excellent views of cropping and pastoral country. A pioneer well and gnamma hole are nearby.

Billyacatting Hill & Reserve F9

Located 9km north of Kununoppin this large granite outcrop has two interpretive walk trails around the base of the rock and another to the peak for amazing views.

Danberrin Rock F10

A pleasant drive 12km south of Nungarin on the Danberrin Road and turn right onto Baird Road.

Datjoin Rock & Datjoin Well F5

Travel 18km east of Beacon on the Burakin-Wialki Road to the pioneer well and camping area. Also known as "Brockman's Hideout" where Brockman, his wife and twelve children took cover under these rock formations when he broke parole and was on the run from police in the 1960s. A narrow track entrance. No RV/caravan access.

Eaglestone Rock & Lake Brown G9

Aspectacular natural granite tor and cave formation 20km north east of Nungarin with access off Lake Brown-South Road. Enjoy great views over Lake Brown to the south. A popular spot for rock climbing clubs.

Elachbutting Rock I6

Located 100km north of Westonia on the Echo Valley-Elachbutting Road. The name Elachbutting means "big thing standing", appropriate for a prominent landmark with excellent views from the top. It has two spectacular colourful waves, a 40m tunnel "Monty's Pass" caused by a rockslide and a large acoustic cave named "King's Cave".

Marshall Rock E8

Located 5km south east of Bencubbin on Marshall Rock South Road, take in 360° views of the surrounding cropping land from the top. Nearby, the Pergandes sheep yards are constructed from local granite slabs not far from the remains of an original settler's homestead.

Mollerin Rock D6

Located 44km north of Koorda on the Kulja Mollerin Rock Road. Beautiful panoramic views from top of the rock.

Newcarlbeon Rock C7

Located 21km north west of Koorda on Newcarlbeon Road. East of the campsite you will find the Newcarlbeon Tank along a walk trail.

Sandford Rocks Nature Reserve J10

Located 10km north east of Westonia along Boodarockin Road, this reserve protects 806ha of granite outcrop with rock pools, wildflowers, natural woodland and a bird hide.

Talgomine Reserve G10

Located 12km east of Nungarin, a large open rock area with picturesque valley between rocks.

Waddouring Dam Reserve E8

Located 14km south of Bencubbin this water reserve is a combination of granite outcrops and bushland, perfect for hiking, birdwatching and seasonal wildflowers. Paddle water sports only, jet skis and motorised boats are not permitted.

Weira Gnamma Reserve H8

Located 13km east of Mukinbudin with picturesque limestone breakaway with a rock gnamma hole. Look out for seasonal wildflowers and native fauna along the bush trail.

HELENA AND AURORA RANGE CONSERVATION PARK 'BUNGALBIN'

This special place in the Great Western Woodlands is known as Bungalbin, the name comes from the Kalamaia language of Traditional Owners the Kalamaia Kapurn people. At 704m above sea level and 200m above the surrounding plain, it is the highest range for hundreds of kilometres. The range with spectacular rock formations and scenery twists and turns for 10km and is made up of distinctive Banded Ironstone Formation (BIF) outcropping that form outcrops, overhangs, rock faces and caves plus remarkable flora and birds especially in spring.

How to Get There: The Mt Dimer Track to the ranges from Koolyanobbing (60km north of Southern Cross) is 4WD only and road conditions vary. There are no facilities at the ranges, please take plenty of food and water and take your rubbish out with you – take only photos, leave only footprints. **Visit [www.helenaaurorange.com.au](http://www.helenaaurororange.com.au)**

WILDFLOWERS

SEASONAL WONDERS

 Cunderdin Hill

Wildflowers are one of our most precious natural treasures, attracting thousands of visitors and special interest groups to the region annually across Winter and Spring. Woodlands come alive with flora-rich species of colourful flowering annuals, perennials, trees and shrubs, including elusive winter orchids and carpets of spring everlastings which all produce a sensory spectacle of colour and scent. To appreciate these remarkable displays up close, take the time to visit any number of the nature reserves and walk trails.

Best times to visit for wildflower displays are during July to October, because this

spectacular floral event is very much dependent on significant autumn and winter rainfall. Some years there is a short window of opportunity, so plan ahead to not be disappointed. At the same time there are extensive patchwork fields of yellow canola and green cereal grain which transforms and illuminates the farming landscape.

The Eastern Wheatbelt is part of Western Australia's south-west which is one of two internationally recognised flora biodiversity hotspots in Australia. The region contains more than 25% of the threatened flora in WA.

Shire of Yilgarn - "Visit the Southern Cross Skies"

Southern Cross ✦ Bullfinch ✦ Bodallin ✦ Marvel Loch ✦ Moorine Rock

Located 368km east of Perth and 225km west of Kalgoorlie, Southern Cross, the hub of the Shire of Yilgarn is often referred to as the gateway to the Goldfields or alternatively the gateway to the Wheatbelt depending on which way you are travelling along the Great Eastern Highway.

The Shire motto, "Visit the Southern Cross Skies", invites you to visit and experience our amazing night skies which have to be seen to be believed! Named after the constellation that guided the founders in 1888, today all the streets in Southern Cross are named after stars and constellations.

The gold prospecting history of the region is richly displayed at the local museum which is situated in the building that was originally the first courthouse built east of York in 1892. Agricultural displays also round out the history of the area with both farming and mining being the main industries.

Explore the rich history of the region and enjoy the modern facilities provided, including clean, modern amenities, an outdoor gym, dog exercise park and free wifi in the main town site.

Welcome to

MERREDIN

A Wildflower Hub

The Shire of Merredin is a proud wildflower friendly town, receiving a 4-Star rating in the Wildflower Society of Western Australia's Wildflower Excellence Rating Scheme. This recognition highlights Merredin's rich biodiversity, with an abundance of wildflowers flourishing across our natural reserves, road verges, and Flora Road vested in the Shire.

Merredin is a vibrant regional hub, located halfway between Perth and Kalgoorlie and serves as the central link on several Wheatbelt Self-Drive Trails. This makes Merredin the ultimate destination to stop, stay and discover the charms of the surrounding region. Merredin is an RV Friendly town with a 72-hour free camping area at Merredin Peak for fully self-contained vehicles.

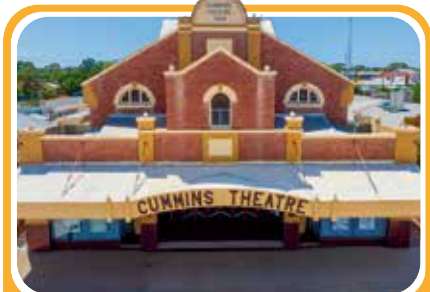

Experience ADVENTURE

- Discover Apex Park | Danjoo Waabininy Boodja, featuring modern facilities such as a skate park, half court, children's playground, BBQ's and toilets.
- Join a Njaki Njaki Aboriginal Cultural Tour to learn about the deep history, sacred stories, and rich culture of the Merredin region.

Experience WONDER

- Marvel at the vibrant floral displays that color the landscape.
- Hike the scenic trails surrounding Merredin Peak and the historical Railway Dam.
- Visit Totadgin Conservation Park to see our 'mini' Wave Rock.
- View Merredin Silo Artwork.

Experience HISTORY

- Catch a live show or take a backstage tour of the historic Cummins Theatre.
- Step back in time and explore the golden era of Wheatbelt rail heritage at the Merredin Railway Museum.
- Uncover rich wartime history at the Merredin Military Museum, or walk through the WWII Army Hospital Site at Merredin Peak Reserve.
